SUMMARY

MERN Stack Developer with hands-on experience in building and deploying full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in RESTful API development, authentication, database design, responsive UI development, and cloud deployment. Proficient in JavaScript, Tailwind CSS, Git, GitHub, and Data Structures & Algorithms using C++, with strong problem-solving and debugging abilities.

WORK EXPERIENCE

- Software Developer Intern, Wizard Support Services.** 11/2025 – 01/2026
- Designed, developed, and deployed full-stack web applications using MongoDB, Express.js, React.js, Node.js, and Tailwind CSS, delivering responsive and scalable solutions for real-world business requirements.
 - Built secure RESTful APIs, implemented authentication and authorization, integrated frontend and backend systems, and managed application data using MongoDB.
 - Collaborated with the development team using Git and GitHub for version control, contributed to feature development, bug fixes, and code reviews, and consistently delivered high-quality solutions within project timelines.
- Web Developer Intern, Drushya Digital India Private Limited.** 12/2024 – 03/2025 | Remote
- Designed and developed responsive user forms using HTML, CSS, JavaScript, and React.js. Implemented form validation, error handling, and optimized input fields to enhance accuracy and user experience.
 - Collaborated with the development team to integrate forms with backend APIs for secure data submission and management.

EDUCATION

- SIES College of Arts, Science & Commerce (Mumbai University),** 2022 – 2025 | Mumbai, India
Bachelor of Science in Computer Science
- CGPA: 8.0/10.0
- SIES College of Arts, Science & Commerce, HSC(Class XII)** 2021 – 2022 | India
- 60.67%
- Crescent High School, SSC (Class X)** 2019 – 2020 | India
- 86.60%

TECHNICAL SKILLS

- Frontend:** React.js, Redux Toolkit, Tailwind CSS, HTML5
- Backend:** Node.js, Express.js, MongoDB, RESTful APIs
- Languages:** JavaScript (ES6+), C++
- Concepts & Tools:** Data Structures & Algorithms (DSA), Git & GitHub, VS Code, Visual Studio, Figma, Postman

PROJECTS

- Saree E-commerce Web App, Tech Stack: MongoDB, Express.js, React.js, Node.js, Redux, Tailwind CSS** <https://mern-ecommerce-psi-seven.vercel.app>
- Developed a full-stack, responsive e-commerce platform using the **MERN** stack for seamless saree shopping experience.
 - Implemented secure JWT-based authentication and authorization with role-based access control for customers and administrators.
 - Built responsive user interfaces for product browsing, category-based filtering, product search, cart management, order placement, and order history tracking.
 - Developed an Admin Dashboard with CRUD operations for products and categories, inventory management, order monitoring, and image upload functionality.
 - Integrated Cloudinary for product image storage, MongoDB Atlas for cloud database management, and Razorpay for online payment processing.
 - Created RESTful APIs for authentication, products, categories, cart, and order management, enabling seamless communication between frontend and backend.
 - Utilized React Context API, Axios, and Tailwind CSS to provide efficient state management, API handling, and a modern responsive user experience.
- Coaching Management System, Tech Stack: MongoDB, Express.js, React.js, Node.js, Context Api, Tailwind CSS**
- Developing a full-stack Coaching Management System using the MERN stack to streamline coaching institute operations, featuring role-based access control, lecturer management, batch management, attendance tracking, and academic administration.
 - Built a centralized Admin Dashboard with secure authentication, enabling efficient management of staff, batches, announcements, course assignments, and institute-wide activities through RESTful APIs.
 - Designed a responsive and scalable architecture using React, Node.js, Express.js, MongoDB, and Tailwind CSS, with future support for multi-tenant SaaS deployment across multiple coaching institutes
- Giphy Web App , Tech Stack: React.js, Redux, Tailwind CSS, Giphy API** <https://giphyweb.netlify.app/>
- Developed a dynamic and responsive web application using **React.js** and **Redux** for seamless state management. Integrated the **Giphy API** to fetch trending, category-based, and search-specific GIFs in real time.
 - Implemented advanced search and category filtering functionalities for enhanced user experience. Built an interactive detail view for each **GIF** with options to view, favorite, and manage personalized collections.

CERTIFICATIONS & ACHIEVEMENTS

C++ Certification (Coding Ninjas)  — 2022 | **Data Structures and Algorithms in C++ (Coding Ninjas)**  — 2023
